

**MH/19
THE POSTE HOUSE**

W1050mm x D512mm x H645mm

£199.99!

Shown decorated with our exclusive Cotswold Stone Textured Cladding for a realistic 3 dimensional finish!

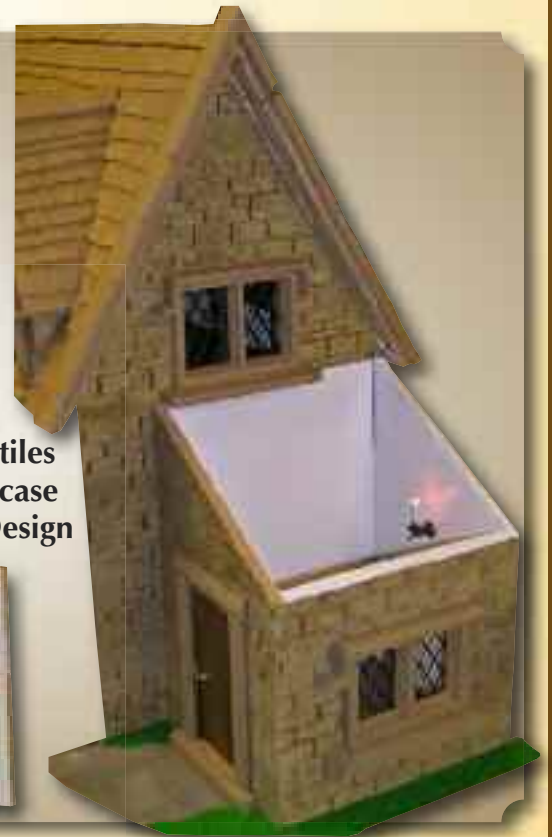

Following the extraordinary success of our Tudor house kits, we decided to expand our range of traditional English buildings . We had always admired the warmth and character of Cotswold stone - the problem was that there were no papers or coverings that even came close! We finally designed and manufactured our own range of cotswold accessories - paper, textured cladding, doors and mullioned windows and our first house is based upon a sub post office in a tiny Cotswold village! All the windows and doors are pre-made in wood, the roof is covered in individual roof tiles and the windows have our own exclusive moulded leaded lights! There are four good sized rooms, a lifting roof and even a lean to annex!

Manufactured in sturdy pre-cut MDF with full instructions, the only tools required are a craft knife and screwdriver!

Realistic Mullioned leaded Light windows!

The lean to Annex has a lift off roof for easy access!
