

Our Catalogue

This year we have once again tried to improve our catalogue with more bigger pictures and easy to read print! We have also substantially reduced the prices of many hundreds of items across the board and managed to maintain our superb value house prices (or in some cases even reduced them!) We have expanded many of our existing ranges and added dozens of great value figures and dolls!

Our Catalogue is still FREE in the uk so if you know someone who would like one just let us know (include their initials and postcode please).

Outside the UK we charge £5.99 to cover postage costs.
